

## **MTCEARBUD3 and MTCEARBUD3P**

Charge before 1<sup>st</sup> use!

1. Open the box
2. Remove each earbud from the case
3. If isolation plastic film is present, remove the plastic film covering the contact points for each earbud (Some earbuds may not have any plastic film)
4. Place both earbuds back into the case
5. With the case open, plug in the provided USB-C cable and then plug the USB-A cable end into power.
6. The indicator bar will sequentially blink and also each earbud should be illuminated red which indicates charging is occurring.
7. Charge the case and earbuds for a minimum of 2 hours before trying to pair with a cellphone via Bluetooth
8. Once charged, remove each earbud from the case (one will blink red & blue indicating it is looking for a device to pair with) and then find MATCOBTEB on your Bluetooth menu to connect.
9. Once connected the earbud LED's will go off.
