QUICK START GUIDE

CL-3033

BEFORE USING ROVI...

WARNING

- Never rely solely on ROVI products when driving. Always practice safe driving habits and follow all driving laws and standards. ROVI products are not a replacement for safe driving habits.
- Always survey your surrounding before driving and operating ROVI products. ROVI products are not replacements for manually checking your surroundings
- Never drive while only looking into the built-in monitors of ROVI products. The images and objects viewed from the screen will be different from the actual distance to your vehicle.
- Do not operate or change settings on any ROVI products while driving or while the vehicle is in motion. Always practice safe, hands-free, and unobstructed driving.
- Mounting and installation locations are for recommendations only. The placement recommendations may not apply to every type of vehicle. Please ensure that installation and mounting location you choose will not obstruct visibility, any safety features of the vehicle, or violate government safety standards.

IN THE BOX

Rovi Dashcam

Suction Mount

8GB
MicroSD Card

USB Car Charger

USB Charge
and Sync Cable

Quick Start Guide

Accessories sold separately. Available on RoviCams.com

INSTALLATION

1. Insert the MicroSD card in the ROVI dashcam. Push card until it locks into place.
2. Determine mounting location (See diagram for optimal placement)
3. Attach the ROVI dashcam and the mount to the windshield.
4. Connect USB power cable to the ROVI dashcam.
5. Route cable around windshield so it is not obstructing visibility.
6. Plug the USB car charger into the 12V socket.
7. Adjust the angle of the dashcam for optimal viewing.
